

UiPath Agent Corp

Paid Time Off (PTO) Guidelines 2025

Objective

UiPath Agent Corp values balance between professional duties and personal wellbeing. The Paid Time Off (PTO) framework empowers employees to manage time responsibly and recharge effectively.

Our PTO policy is closely aligned with the UiPath Agent Corp Holiday Calendar 2025, ensuring that employees can leverage both public and creative holidays like Agent Holiday, National AI Day, and UiPath Agent Corp Day.

Policy Principles

PTO may be requested for rest, family commitments, personal projects, or participation in community events such as Robot Appreciation Day.

All PTO requests should be submitted via AgentDesk, our time and attendance portal, with at least two weeks' notice where possible.

Unused PTO does not roll over year to year—employees are encouraged to take time off to maintain wellbeing.

Responsibilities

Employees are responsible for planning PTO in consultation with their managers, ensuring smooth workflow continuity.

Managers must fairly evaluate PTO requests, balancing business requirements with employee wellbeing.

Employees should activate out-of-office notifications in AgentMail, referencing alternate contacts for urgent matters.

Policy Breach & Reporting

Unrecorded absences or misuse of PTO may result in corrective measures, including loss of access to AgentDesk or disciplinary review.

Reports of misuse can be submitted via the Agent Compliance Portal at agent-support@agentcorp.ai.

Policy Modifications

UiPath Agent Corp reserves the right to adapt PTO guidelines in line with evolving regulations and organizational needs.

Future modifications may include additional creative leave types linked to the Agent Holiday Calendar (e.g., Agent Wellness Day Leave).
