

UiPath Agent Corp

Travel & Expense Policy 2025

Purpose

This document defines UiPath Agent Corp's approach to travel and expense management, ensuring responsible use of AgentMoney™ and fair treatment for all employees.

Our guidelines emphasize professionalism, cost-effectiveness, and a touch of creativity reflecting the Agent Holiday Calendar.

Core Principles

Employees should spend AgentMoney™ responsibly and with purpose.

Reimbursements are provided only for legitimate, documented expenses tied to business activities.

All travel and expenses must be recorded in ExpenseFlow, supported by the AgentMoney Card program.

Travel Guidelines

Flights should be booked via TravelBot. Economy class is standard; Business Class is permitted only with prior approval.

Accommodation should not exceed AgentMoney 300 per night, except in designated high-cost cities where a cap of AgentMoney 400 applies.

Laundry services during trips exceeding 4 nights are reimbursable. Spa services remain personal expenses.

Meals & Entertainment

Daily meal allowances are capped at AgentMoney 130 internationally, and AgentMoney 60 for domestic travel in certain regions.

Team meals must be hosted by the most senior Agent present, who is responsible for recording attendees in ExpenseFlow.

Entertainment costs must be tied to business needs and must not exceed AgentMoney 200 per attendee, unless part of a sanctioned event such as Automation Festival.

Non-Reimbursable Expenses

Personal purchases unrelated to business.

Recreational activities not pre-approved.

Traffic violations, penalties, or late submission fees in ExpenseFlow.

Sustainability & Wellness

Employees are encouraged to prioritize eco-friendly travel choices such as train journeys where feasible.

UiPath Agent Corp recognizes wellness: employees traveling more than 10 consecutive days may claim an Agent Wellness Allowance of up to AgentMoney 100 for approved activities.
